

AIA/CES Registered Provider Program Summary

Provider Name: Curecrete Distribution

Program Title: Enhancing the Performance of Concrete Surfaces through the Use of Chemical Densification (CDI02)

Length: 1 hour

Credits: 1 LU (Learning Units)

HSW: No (Yes or No)

GBCI Credits: No

Program Overview:

Understand how chemical densifiers work and understand the benefits of using them. Application methods are also discussed.

Learning Objectives:

1. The shortcomings of untreated concrete floors
2. The practices that can undermine the performance of untreated concrete
3. The advantages and disadvantages of coatings
4. The advantages and disadvantages of floors treated with densifiers
5. How chemical densifiers work
6. How densifiers are applied
7. Where chemical densifiers are specified
8. How chemical densifiers are used in conjunction with other concrete technologies
9. The differences among and between chemical densification products

Facilitator Qualifications:

Curecrete Distribution manufacturer's representative.

Method of Delivery: Powerpoint presentation

Audio/Visual required: Powerpoint projector

Cost to participants: 0

Point of Contact:

Justine Johnson / Vernon Talbot / Mark Trunnell
