

Curecrete 公司对中国的承诺依然坚定

持续深化值得信赖的合作伙伴关系，以经实践验证的卓越表现，共同推动中国混凝土密封致密与抛光行业的未来发展

75 年来，Curecrete 通过创新、技术专长，和长期合作伙伴关系，在全球范围内提高了混凝土的性能。自 1949 年推出业界首款混凝土致密剂以来，我们一直帮助客户改善、保护，和延长混凝土的使用寿命。Curecrete 通过其指定合作伙伴江苏华灿进入中国大陆，此后，我们的品牌在市场上获得了广泛认可。

我们感谢江苏华灿在中国推广 Curecrete 产品方面所发挥的作用。由于双方未能就商标归属达成一致，该合作关系现已结束。随后，江苏华灿选择了其他替代方案。Curecrete 一直按照中国法律运营，是其各品牌在中国的英文和中文商标的合法所有者。这为客户和合作伙伴在市场上的持续业务提供了明确、稳定的基础。在此我们祝愿江苏华灿未来发展顺利。

目前的决定不是由 Curecrete 管理层的任何变化或其对中国的承诺造成的。在东亚董事总经理 Joshua Solorzano 的领导下，我们在中国市场的领导地位已经持续了近 15 年。

几十年来，Curecrete 一直是一家国际公司，在不同的市场、文化、气候，和各类施工工艺中开展工作。我们的技术团队为美国混凝土学会（ACI）委员会服务，为世界各地的工程师和设计规范制定者所依赖的行业标准做出贡献，并使我们与塑造行业未来的研究保持联系。无论他人寻求何种外国专业知识，Curecrete 都带来了成熟的全球经验和将行业挑战转化为实际解决方案的良好记录。

Curecrete's Commitment to China Remains Strong

A continued commitment to trusted partnerships, proven performance, and the future of concrete densification and polishing in China.

For more than 75 years, Curecrete has advanced concrete performance across the globe through innovation, technical expertise, and long-term partnerships. Since introducing the industry's first concrete densifier in 1949, we have helped customers improve, protect, and extend the service life of their concrete. Curecrete entered mainland China through its designated partner, JiangSu Huacan, and our brands have since earned broad recognition across the market.

We appreciate JiangSu Huacan's role in promoting Curecrete's products in China. That cooperation has now ended because the parties could not agree on trademark ownership. Subsequently, Jiangsu Huacan has chosen to pursue other alternatives. Curecrete has consistently operated in accordance with Chinese law and is the legal owner of the English and Chinese trademarks for its brands in China. This gives customers and partners a clear, stable foundation for our continued business in the market. We wish JiangSu Huacan success in its future endeavors.

This decision was not caused by any change in Curecrete's management or its commitment to China. Our leadership of the China market has been consistent for nearly 15 years under Joshua Solorzano, Managing Director of East Asia.

Curecrete has been an international company for decades, working across markets, cultures, climates, and construction practices. Our technical team serves on American Concrete Institute (ACI) committees, contributing to the standards engineers and specifiers around the world rely on and keeping us connected to the research shaping the industry's future. Whatever outside expertise others may seek, Curecrete brings established global experience and a proven record of turning industry challenges into practical solutions.

As the industry moves to lower-carbon concrete, new performance challenges are emerging quickly and demanding new solutions. Curecrete has been researching solutions for years and launched dedicated products in 2024. These products are part of a portfolio covering new construction, maintenance, and rehabilitation, including densification, concrete repair, surface protection, polishing, and maintenance systems, all backed by decades of expertise and field performance.

Curecrete and its partners have navigated economic downturns in many countries, and our products have helped them protect value through reliable performance and long-term customer trust. We approach China's current economic challenges with the same

determination. Our brand recognition remains strong, our quality is unchanged, our partner network is extensive, and our commitment to China is firm.

Curecrete remains fully engaged in China and throughout Asia. We are strengthening customer support, developing trusted partnerships, and expanding access to our technologies, all built on lawful operations, transparency, and integrity. Customers, distributors, architects, engineers, contractors, and facility owners can continue to expect consistent leadership, dependable supply, and technical support.

As the industry evolves, Curecrete will continue to lead with proven products, advanced expertise, a clear strategy, and full legal ownership of its brands. We are confident in the future. Curecrete remains a stable and trusted partner, and we invite everyone who has used our products to deepen their cooperation with us. Staying true to what first inspired us all, together we will lead the next chapter of concrete densification and polishing in China.
